

Anne Shirley Bookmark

Make your own Anne Shirley bookmark. The instructions are extremely simple and it should take no time to reach the end product :-)

1) Print out the bookmark. You can do this by clicking the print icon on the top of the window  Print if you are viewing the bookmark there. If you wish to alter the size of the bookmark, view the .HTML format of this page.

2) Cut around the bookmark 

3) Paste the bookmark onto a thin piece of cardboard or onto several sheets of paper glued together so that it's hard enough to give the bookmark support. You can always paste two bookmarks back to back into one!

4) Personalize your bookmark (i.e. punch a hole on the top to loop a tassel through).

5) Happy reading!
