

Anne Shirley Bookmark

Make your own Anne Shirley bookmark. The instructions are extremely simple and it should take no time to reach the end product :-)

1) Right click the bookmark, then click 'Save Target As...' to save the bookmark.

2) Print out the bookmark. You can do this by clicking the print icon on the top of the window  if you are viewing the bookmark there. If you wish to alter the size of the bookmark, view the .HTML format of this page.

3) Cut around the bookmark 

4) Paste the bookmark onto a thin piece of cardboard or onto several sheets of paper glued together so that it's

hard enough to give the bookmark support.

5) Use a sharp edge (i.e. x-acto knife) to cut along the black lines towards the top, middle part of the bookmark. It is where the lines form an open box that you follow.

6) Personalize your bookmark (i.e. punch a hole on the top to loop a tassel through). You can always paste two bookmarks back to back into one!

7) Happy reading!
